## **3N1 3-LAYER FACE SHIELD** **PROTECT EMPLOYEES, CUSTOMERS, AND PATIENTS**

*Racing Optics's® 3N1™ face shield is an optically clear, full-face covering that is a system comprised of a base layer plus two removable layers. Each 3N1™ layer is manufactured using premium materials which protect against airborne droplets and aerosols.*

- **Three removable layers are equivalent to 3 stand-alone shields**
- **Quickly and easily remove a contaminated layer**
- **Designed to protect the entire face: eyes, nose, mouth**
- **Durable, lightweight, shatterproof, medical-grade material**  
√ high heat & chemical resistant √ multi-layer √ excellent clarity
- **Improve communication with increased safety**
- **Manufactured in the USA by Racing Optics® whose patented PPE technologies and safety shields have been protecting surgical patients, doctors and professional race car drivers around the world for over 20 years**

### **Cloth mask vs 3N1™ 3-Layer Face Shield**

- ⊗ No eye protection
- ⊗ Uncomfortable & difficult to breathe
- ⊗ Difficult to disinfect
- ⊗ Requires face touching to put on & adjust
- ⊗ Difficult communication & social interaction
- ⊗ Limited durability
- ✓ Can create a seal on all sides of face

- ✓ Protects your eyes from droplets and splash
- ✓ Comfortable to wear & easy to breathe
- ✓ Simply remove a soiled layer
- ✓ Easy to attach & prevents face touching
- ✓ Lip reading, facial recognition & social interaction
- ✓ Last 3X longer than a single shield
- ⊗ Open sides may allow small particles to float in

*"Face shields would be helpful for those who come in contact with lots of people every day."*

*Dr. Robert Kim-Farley,  
UCLA Fielding School of Public Health*
