LET THE GOPHER GET IT!

GOPHER Industrial®

Clear transparent screens are ideal for social distancing because they are portable and provide a protective physical barrier between individuals. These screens are perfect in a variety of situations such as: pet grooming, offices, industrial packaging lines, restaurants and hair salons. Clear screens can also be used as a barrier for chipping and grinding applications.

PROTECT-O-SCREEN™

539   AVAILABLE IN CLASSIC AND HD

- The unique modular design allows the addition, removal, replacement, and rearrangement of panels to adapt to new requirements in just minutes. Use individual panels or join together to form multi-panel enclosures or in-line dividers.
- Sturdy 18-gauge steel, black rust-resistant enamel-finish square tube frame
- Any Screen can be used horizontally or vertically
- 24" sturdy platform legs can be turned 90 degrees to prevent interference with adjoining screens
- Optional casters allow quick and safe mobility. Single caster leg and locking caster wheels are available
- Accessories and replacement curtains available
- Available in custom sizes
